BECK BUILDING
PORTLAND, OREGON

June 8, 1917.

The Forester,

Washington, D. C.

Dear Sir:

This office was notified recently that the U. S. Geographic Board, at its meeting held on February 7, 1917, rendered the following decision:

Goode; Peak, (altitude 9,000 feet), Chelan County,
Wash. (Not North Star Mountain.)

This office is at a loss to know where the recommendation for such a change originated. The matter has been taken up with the Forest Supervisors of the Chelan and Wenatchee Forests and for your information copies of their letters are enclosed.

It will be noted that there appears to be some confusion with regard to the naming of this feature. Also, for your information, a copy of the Stehekin quadrangle is enclosed showing the location of the features mentioned in the letters referred to with the proper names indicated. It will be appreciated if your office will take up this matter with the U. S. Geographic Board with a view to straightening out

U. S. G.

The Forester, 6/8/17.

the confusion incident to the naming of this feature.

Very truly yours,

Wm. J. Baul
District Forester.
